

Kip Ravan

President/Owner

Background

Kip has worked in the plumbing & mechanical field since 1978. He ran work as a Project Manager, Foreman and Pipe Welder on jobs such as President Gerald Fords' personal residence, Vail Valley Hospital and numerous schools including Colorado Northwest Community College. Kip established Falcon Plumbing & Heating in 1984 and incorporated in 1989.

Over the past twenty years he has trained and developed his Project Managers and Estimators to create a team of highly skilled professionals which has facilitated the growth that has made Falcon Plumbing and Heating a major mechanical contractor in Colorado.

Kips goal has been to create a company that is supportive of the professional development of its employees, and thereby fostering the continued improvement of its professional services in order to provide clients with a superior project. This fundamental management principle has created an atmosphere of mentorship and collaboration that has resulted in creative problem solving, innovative ideas, and ultimately, clients who are not just satisfied, but impressed with the value Falcon Plumbing brings to a projects design and execution.

Notable Projects

Kip oversaw the Sundeck Restaurant project atop Aspen Mountain, which was one of the first 11 structures in the nation to be certified in the U.S. Green Building Council's pilot Leadership in Energy and Environmental Design (LEED) Program.

Kip estimated and project managed the Eagle County Airport Phase I project that was awarded ABC's National Award for Best Design Build Project 6 Million to 25 Million.
